The ASB Social Sport offers levels of play for every team – from novices to superstars. We have four different levels so there is something for everyone.

FIRST TIME TEAM

The first time team level is aimed towards teams that are just looking to have fun. This is the most basic level that the ASB Social Sport offers, you can think of it as the "beginners" level. Participants that play at this level are out to enjoy themselves rather than keeping score. Most players have not played on an organised team before and are not fluent with the rules. This is a great level for beginning teams to start and a great way to begin your team's dynasty.

INTERMEDIATE

The intermediate level is intended for teams that are still relatively new to the sport but are seeking a little bit more of a challenge. Participants that play at this level have a sound knowledge of the rules and the game. Most participants at this level have played for a few leagues. This is a great level for those teams that have had success at the recreational level and are now ready to step their game up!

UPPER INTERMEDIATE

The Upper Intermediate level is designed for teams that have been involved in the sport for a while and are definitely ready to be tested. Participants at this level can expect a high quality of competition. Most participants at this level have played the sport for quite some time and have a strong base in the fundamentals of the sport. This is a great level for teams to begin bridging the gap between regular player and skilful stud!

SKILFUL AND EXPERIENCED

This level is aimed towards teams that have played their respective sport for a large portion of their life (club / school) and enjoy the sheer competition of the sport. Participants at this level should definitely have their game face on and expect a tough but fair game. This is great level for those of you who are in it to win it!
