

## Skyline Screamer - Te Whiti Firebreak - Lower Hutt

**The Track:** The start will be 10-15m past the Te Whiti radio tower on Wainui Hill.

1: 50m from start, it all starts with a steep rocky chute with a ledge in the foreground.

2: Right from the go the riders are into a steep 4wd with minor ruts.

3: Looking back up at the last photo point.

4: The Dipper. This will be sign posted with appropriate warnings. It's not too rutted.

5: fast section with rutted corners, medium risk with high visibility.

6: The race track follows a road out to the right. The straight ahead option is way too rocky and dangerous even for the most experienced riders.

7: the turn off, with ruts to cross & narrowing as you get further down.

8: same side track further down, rejoining main track further down.

9: Close to home, the track widens and gradient is manageable and of medium risk.

10: Hairpin corner to long home straight.

11: narrowing track in the home straight.

12: home straight continues down to Te Whiti Park

13: final drop to finish. Ideally the finish will be approx 50m into the park.
